YA Papercraft

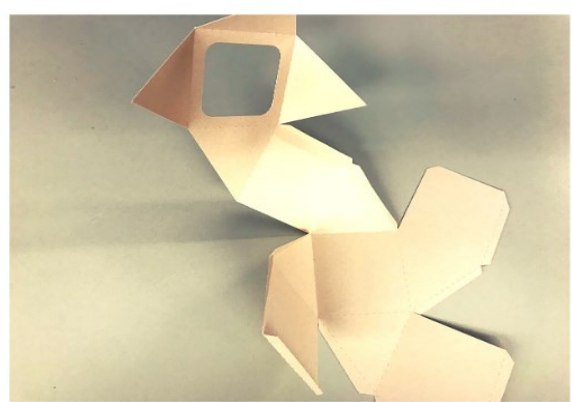

Flower & Pot Papercraft

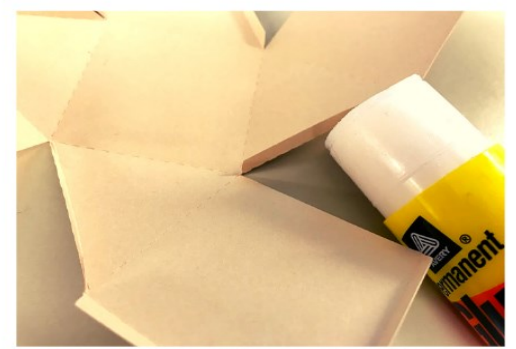

Materials: pre-cut pot, metal brad, fuzzy craft stick, 1 large flower, 2 small flowers, and leaves.

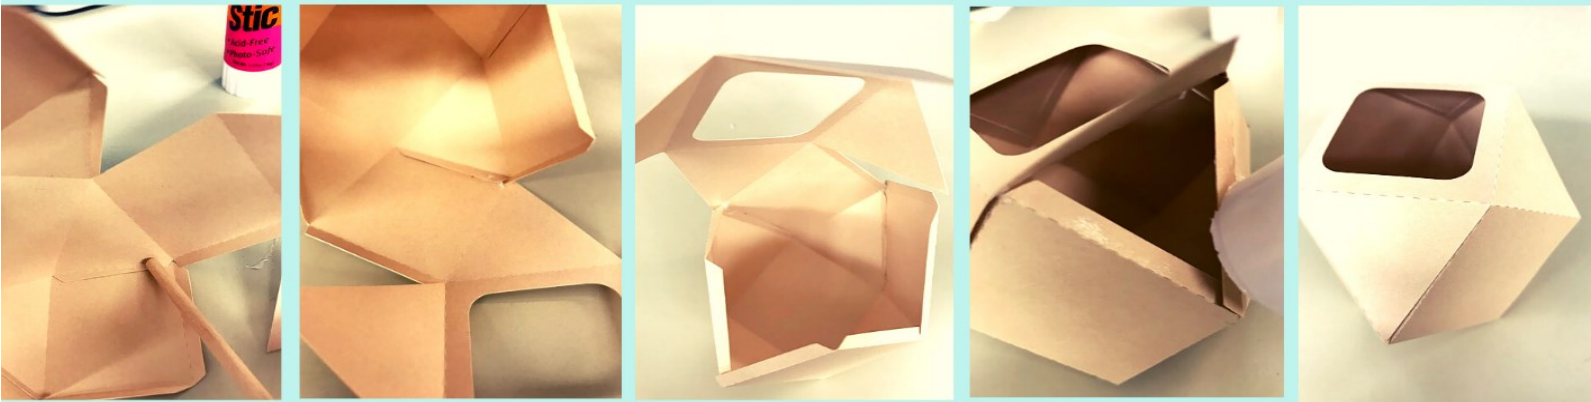

1. Fold all perforated lines on flower pot inward.

2. Glue small tabs and connect triangle sections to the sides of square sections.

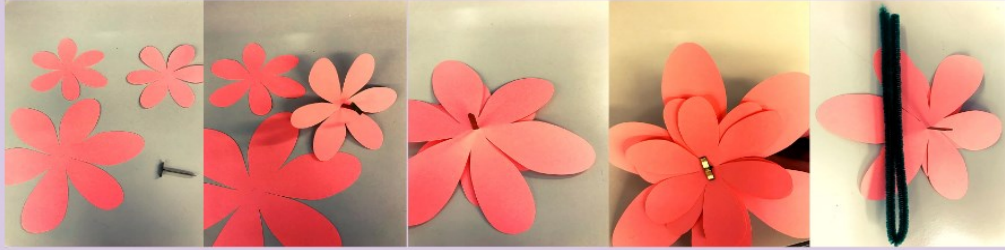

3. Continue to glue the tabs and connect the edges of the triangles and squares. use the popscicle sticks to press down the glued tabs to ensure they connect.

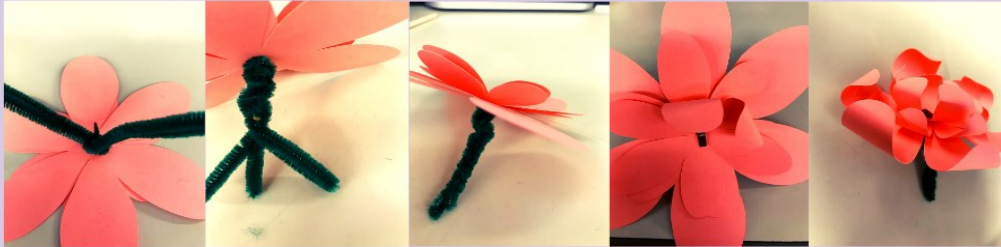

Flower & Pot Instructions (continued)

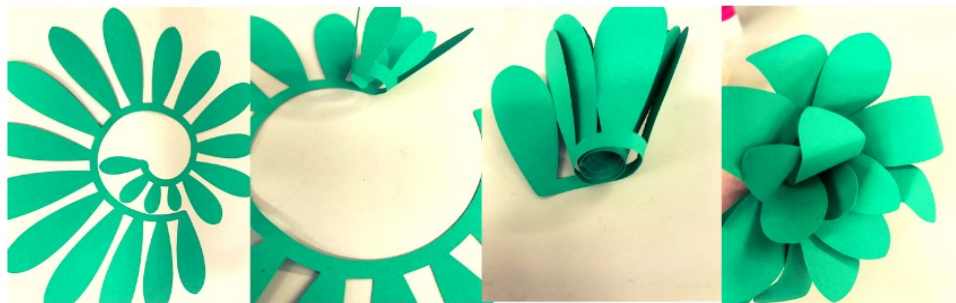

4. Stick brad through both small flowers, then large flower.

5. Fold stick in half and wrap center around brad. Twist completely to make stem. Curl flower petals inward to center.

6. Roll leaves completely and curl the leaves outward away from center.

7. Place leaves in pot, then flower in center of leaves.
